#### Description

Despite being as a recommended set with nutracks, it completely breaks when both newgrfs are loaded. As in, majority of 2cc set trains just disappear.

#### History

Two problems with your settings:

1. - I think Nutracks should be loaded after 2cctrainset but this is less important.
2. - IIRC, Beta 4.1 is broken - reported many times before - you should download the latest nightly

##### #2 - 2011-05-04 17:40 - Voyager1

- Status changed from New to Resolved
