

NewGRF Meta Language - Patch #7640

[Patch] Use dashes, not hyphens in manpage

2015-05-01 21:24 - matthijs

Target version:			

Description

In the manpage, plain - characters are used, which are rendered as (non-ASCII) hyphens by groff. This is ok for e.g. "read-only", but for e.g. "--grf" dashes are needed to make copy-pasting work.

I've attached a patch which fixes this. Technically, it seems that inside the .FI macro, this is not necessary, but it doesn't hurt either (and is good for consistency).

This fixes a lintian warning in Debian: <https://lintian.debian.org/tags/hyphen-used-as-minus-sign.html>

Associated revisions

Revision 2292:e60e3b517945 - 2015-05-10 15:59 - planetmaker

Fix #7640: Use dashes, not hyphens in manpage (matthijs)

History

#1 - 2015-05-10 23:13 - planetmaker

- % Done changed from 0 to 100

- Status changed from New to Closed

Applied in changeset commit:e60e3b517945.
